DETAILED ACTION

Election/Restrictions

1. In view of the indicated allowability of claims to the elected invention, *infra*, and pursuant to MPEP § 821.04(a), the restriction requirement set forth in the Office action mailed on 24 July 2008 is hereby withdrawn since the non-elected claims depend upon and therefore necessarily require all the limitations of an allowable claim. Applicant's election and traversal filed 29 September 2008 has been considered, but is moot in view of the withdrawal of the restriction requirement, *supra*.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Drawings

2. The drawings were received on 08 April 2008. These drawings are accepted.

Specification

3. The disclosure is objected to because of the following informalities:
- a. In line 22 on page 26, "204" should be change to --203-- in order to be consistent with the remainder of the disclosure.
 - b. In line 2 of claim 24, "read write" should be corrected to read --read-write-- for clarity and consistency.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:
- The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
5. Claims 1-10 and 13-26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
- a. Many elements in the claims are indefinite because they lack clear and/or positive antecedent basis including "the data surface" (line 13 of claim 1), "the read-write direction" (line 15 of claim 1, and lines 14-15 of claim 22), and "the track following" (line 8 in claim 22, and line 2 of claim 25).
 - b. In lines 2-3 of claim 2, it is indefinite as to whether the "at least one actuator element" is the same as that set forth in line 8 of claim 1, or if this "at least one actuator element" is in addition to that set forth in line 8 of claim 1.

c. In lines 1-2 of claim 26, it is indefinite as to which of the "two electromagnetic actuator devices," set forth in line 6 of independent claim 1, is being referenced by "the at least one electromagnetic actuator device."

d. Claims 3-10, 13-21, and 23-24 inherit the indefiniteness associated with their respective base claims and stand rejected as well.

Response to Arguments

6. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
